QUICK REFERENCE · DOC ID MAG-SOP-2026.1 (SAMPLE)

Multi-agency dispatch: joint escalation & inter-agency handoff

P Police F Fire A Ambulance

1 STAGE 1 Triage & identify need

- Determine the primary nature of the incident.
- Assess the life-safety threat: Priority 1 or Priority 2.
- Check multi-agency triggers: fire, entrapment, hazardous materials, threat to safety, road closure, multiple casualties.

SAY "Confirming multi-agency dispatch."

2 STAGE 2 Select agencies

- Match every trigger to an agency (colour, icon and label).
- Select all agencies the triggers need, not just the first one you hear.

P Police	Active threat, crime, traffic and road closures, scene safety
F Fire	Fire, rescue and entrapment, hazardous materials
A Ambulance	Medical emergency, injury, casualties

SAY "Alerting [agency] on the shared talkgroup."

3 STAGE 3 Execute the handoff

- Transmit a **METHANE** report.
- Transfer the CAD incident record to each secondary agency.
- Confirm the verbal patch on the shared talkgroup.

SAY "METHANE report sent. Confirming receipt."

4 STAGE 4 Joint log & verify

- Verify a timestamped acknowledgement from every agency in CAD.
- Keep the caller on the line while a threat persists.
- Log the joint incident ID.

SAY "Joint CAD log linked under # _____."

METHANE report (Stage 3) Same facts, same order, for every agency.

M Major incident	**E** Exact location	**T** Type of incident	**H** Hazards	**A** Access	**N** Number of casualties	**E** Emergency services
Declared, or on standby	Road, direction, nearest exit or landmark	What happened, and what's involved	Present or suspected	Safe routes in, and where to stage	How many, how severe, any trapped	Present now, and still required
